XVII INTERNATIONAL CONGRESS OF KARM

«A MODERN APPROACH IN FERTILITY TREATMENT. ASSISTED REPRODUCTIVE TECHNIQUES: PRESENT AND FUTURE»

ENG

On behalf of the Kazakhstan Association of Reproductive Medicine, I am pleased to welcome you to the XVII KARM Congress, dedicated to the 30th anniversary of the opening of the first IVF laboratory in Kazakhstan.

This anniversary is not just a date but a significant milestone in the history of national medicine. Over the past three decades, reproductive medicine in our country has made remarkable progress, from the first laboratory successes and the birth of the first child to international recognition of Kazakhstani reproductive science.

Our Congress brings together more than a thousand specialists from thirty countries, leading scientists, obstetricians-gynecologists, embryologists, and geneticists, clinicians and researchers alike. Such wide representation of leaders in reproductive medicine reflects the high scientific standard, openness, and international recognition of the Kazakhstani school of reproductive medicine..

Modern medicine is evolving at an unprecedented pace, offering new possibilities for treating infertility. Yet, despite all the technological advancements, the focus of our profession remains on the human being, their life, their hope, their dream of having a family.

May this Congress become a platform for inspiring knowledge exchange, innovative ideas, collaborative projects, and enduring professional friendships that will help us all move forward, for the sake of health, family, and the future.

I wish all participants fruitful work, engaging discussions, and vivid impressions from our professional interaction!

Sincerely,

President of the Kazakhstan Association of Reproductive Medicine,
Academician of the National Academy of Sciences of the Republic of Kazakhstan under the
President of the Republic of Kazakhstan,
Professor **Vyacheslav Notanovich Lokshin**

PLENARY SESSION I

**Moderators: V. N. Lokshin, V. S. Korsak, V. E. Radzinsky,
T.M. Dzhusubaliyeva**

09:00-09:10

Theme: Priorities in the Development of Reproductive Medicine

Speaker: Vyacheslav Notanovich Lokshin — Professor, Academician of the National Academy of Sciences of the Republic of Kazakhstan, Chief Freelance Reproductologist of the Ministry of Health of the Republic of Kazakhstan, President of MAM, President of KARM, Almaty

09:10-09:25

Topic: Reproductologist, Remember the Obstetrician!

Speaker: Vladislav Stanislavovich Korsak — Doctor of Medical Sciences, Professor, President of the Russian Association of Human Reproduction (RAHR), Moscow, Russia

09:25-09:40

Topic: Unexplained Infertility - A Vanishing Diagnosis in 2025

Speaker: Clare Boothroyd — MD, Immediate Past President of ASPIRE, Australia

09:40-10:00

Topic: Endometrial preparation and luteal phase management options for FET

Speaker: Marcos Horton — MD, Co-Founder and Director, ART Lab, Pregna Medicina Reproductiva; Buenos Aires, Argentina; President-Elect of the International Federation of Fertility Societies (IFFS)

10:00-10:20

Topic: Advantages and Limitations of PGD

Speaker: Shoukhrat Mitalipov — Ph.D., Professor, Department of Obstetrics and Gynecology; Director, Center for Embryonic Cell and Gene Therapy, Oregon Health & Science University (OHSU), USA

10:20-10:35

Topic: Modern Demographic Trends: A Reproductologist's Perspective

Speaker: Tamara Muftakhovna Dzhusubaliyeva — Candidate of Medical Sciences, Obstetrician-Gynecologist of the Highest Category, WHO Expert on Reproductive Health, General Director of the IRM Clinic Network, Almaty, Kazakhstan
